### 4. First aid measures

#### 4.1. Description of first aid measures

<b>General</b>	In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.
<b>Inhalation</b>	If a person sensitive to inert dust experiences coughing, remove the person to an area clear of dust.
<b>Eyes</b>	If dust particles lodge in eyes, use standard eye wash solutions or water and allow eyes to clear.
<b>Skin</b>	Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.
<b>Ingestion</b>	If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.

#### 4.2. Most important symptoms and effects, both acute and delayed

<b>Overview</b>	Inhalation: Congestion and irritation of throat, nasal passages and upper respiratory systems. Persons sensitive to inert dust may experience coughing when exposed to heavy concentration of airborne material. Eyes: Temporary irritation and inflammation. Target Organs: Lungs Primary Routes of Entry (Exposure): Inhalation Medical Conditions Aggravated by Exposure: Pre-existing upper respiratory and lung disease such as, but not limited to bronchitis, emphysema and asthma. Inhaling of high amounts of any nuisance dust over long periods may overload lung clearance mechanism and make lungs more vulnerable to respiratory disease. See section 2 for further details.

### 8.2. Exposure controls

<b>Respiratory</b>	Even though classified as a nuisance dust and treated with anti-dust wetting agent, we recommend use of NIOSH approved dust respirator when excessive dust concentrations are airborne.
<b>Eyes</b>	Safety glasses/goggles usually not necessary
<b>Skin</b>	Not applicable
<b>Engineering Controls</b>	Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.
<b>Other Work Practices</b>	Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
